Christian population growth is the population growth of the global Christian community. According to a 2011 Pew Research Center survey, there were 2.3 billion Christians around the world in 2010, more than three times as many as the 600 million recorded in 1910. However, this rate of growth is slower than the

overall population growth over the same time period.

Annual interest yield (APY) is a measurement that can be used to check which deposit account is the most profitable, or whether an investment will yield a good return. You can also use it in reverse; you can find the interest rate with a given compound frequency if you know what the annual percentage yield is. Also, just for your convenience ...
