Claims against professionals, such as accountants, financial advisers, solicitors, surveyors and architects, have become more common in recent years. This is due to a combination of factors including an increasing reliance upon professional advice, the complexity of work carried out, and a raised awareness of legal rights. In addition, in times of economic downturn, losses suffered are often more apparent.

A Brief Guide to Genomics Genomics is the study of all of a person's genes (the genome), including interactions of those genes with each other and with the person's environment. What is DNA?

**A Brief Guide to Genomics - Genome.gov**

Professional teeth whitening works a lot like a carpet stain remover. Staining agents from food, drink, and habits like smoking, get caught in the ridges of your enamel. To remove these stains, dentists use a solution, usually one that contains peroxide, which breaks down these trapped particles into smaller pieces so that they can be flushed from your teeth.
