Behavior: The behavior refers to what the student does in response to the antecedent and is sometimes referred to as "the behavior of interest" or "target behavior." The behavior is either pivotal—meaning it leads to other undesirable behaviors—a problem behavior that creates danger for the student or others, or a distracting behavior that removes the child from the instructional setting or ...

ABC: Antecedent, Behavior, Consequence

For example, if the teacher reminds students to raise their hand to answer a question, this can spark a desire to participate (altered antecedent). In addition, ample positive feedback after a student responds to a question (altered consequence) may instill a desire to participate more often. In adulthood, the same concepts can apply.
