### Ash Glazes

Ash glazes are ceramic glazes made from the ash of various kinds of wood or straw. They have historically been important in East Asia, especially Chinese pottery, Korean pottery, and Japanese pottery. Many traditionalist East Asian potteries still use ash glazing, and it has seen a large revival in studio pottery in the West and East. Some potters like to achieve random effects by setting up ...

### Ash glaze - Wikipedia

An ash glaze for cone 10 can be ash and clay. At cone 6, after reading more on ash glazes, fake ash glazes (which can contain a lot of whiting in order to add enough calcium), desired ash glaze effects, coloring, and potential fluxes, I used the following three glaze ingredients for a triaxial blend (2): A=Wood Ash B=Red Clay C=Nepheline Syenite

### Working with Ash in Glazes - Ceramic Arts Network

Ash glaze, as the name suggests, is a glaze derived from ashes. The earliest such glazes can be traced back to the Shang period in China (c. 1500 B.C.), and it is thought they were produced accidentally, the result of white-hot wood ash being carried through the kiln with the draft of the fire and settling onto the pots, where the searing white heat melted it to a glass.

Ash glazes allow us to "let the kiln be the paintbrush" by relying on the wood-firing process as the glazing agent. Most pieces dedicated to Ash glazing are placed in the kiln with little to no glaze applied to the exterior. During the firing process, the wood is stirred occasionally in the firebox

## **Ash Glazes — Ben Owen Pottery**

I started using ash glazes because I liked the idea of utilizing a material that many would consider waste: wood ash from a fireplace. While living in Miami after Hurricane Andrew in 1992, there was an abundance of wood for fires on cool nights, so I had a source of ash. I decided to make ash glazes using 50 parts Redart and 50 parts ash.
