exclusive international actors, they are the primary subjects of international law and possess the greatest range of rights and obligations. Unlike states, which possess rights and obligations automatically, international organizations, individuals, and others derive their rights and duties in international law directly from particular instruments.

**International law - States in international law | Britannica** mentioned earlier however, there is no obligation under international law for States to recognize an entity as a State, once it meets the factual criteria for statehood. At the same time however, it seems that a State cannot exercise its full legal rights under international law without recognition by other States.
