Understanding black American social identity has suffered from association with the race idea. Being black American is not a racial designation. The tendency to reduce color-conscious social identity to racial classification is a mistake. Black American social identity gets its "blackness" from traceable African ancestry and is marked by the legacy of slavery.

Social Construction and Racial Identities - Oxford Handbooks

Given the role our identity plays in the way we experience and accrue power, it's important to understand the potential obstacles, discrimination and oppression that some groups experience over others.
