Doodles was a syndicated cartoon feature created by Roger Price and collected in his 1953 book Doodles, though the term is now used more generally of similar visual riddles. Contents 1 Form

### Doodles - Wikipedia

He would draw doodles on a white board and challenge the creative team to "solve" them. What the heck is a doodle, you might ask? The simplest explanation: Doodles are part doodle, part riddle. I did a little Wiki search to find a more formal answer, as well. Doodles were trademarked in 1953 by a cartoonist named Roger Price.

### Doodles and Doodles - The Neat Hook

through the searching machine the user can generate doodles from the database according to the following attributes: a question, an answer, an archive reference, a collector, the location of collection or topography, the time of collection or date and the subject. The attribute of a question.

### DROODLES - Preface

As a preliminary definition, a mathematical doodle is a visual object accompanied by a "What is it?" question to which there is at least one plausible answer with mathematical contents. The concept might not be altogether new. Much appreciated Proofs Without Words fit the Description. But the class of mathematical doodles is broader by far.
