It looks like it is out of place on the fe motor , some call it a cookie cutter shape .Each starting with the first will have less hp than the others . Price for a good 428 is around 2 to 3000 bucks , a 428cj running good can be 4 to 5000 and a scj can be a great deal higher depending on the date code which on any fe motor is located on the ...

The Ford FE series engines used two distinctly different methods of oiling that are well documented. For this site, I discuss the 1973 390 FE/TE method. The Ford Y-Block had a terrible oiling system. The FE is the 'next generation' Y-Block with vast improvements. Production FE engines benefit greatly from hand-built oil modifications, discussed ...

Most notably, the FE 427 powered Ford GT40s to four consecutive LeMans wins from 1966 to 1969, an epic achievement for Ford and the FE engine. So here is the FE engine legacy: It was the engine that was in the most famed Ford racing vehicles of the time in each form of motorsports—NASCAR, the Cobra, the GT40, and the Thunderbolt.

### Ford FE Engines: The Complete History

The Ford FE engine is a Ford V8 engine used in vehicles sold in the North American market between 1958 and 1976. The FE was introduced to replace the short-lived (in the USA) Ford Y-block engine, which American cars and trucks were outgrowing. It was designed with room to be significantly expanded, and manufactured both as a top-oiler and side-oiler, and in displacements between 332 cu in (5.4 ...

428 FE Rebuild. by Lou Vecchioni . Do not generically apply "Chevy practices" to an FE rebuild. Many shops know Chevy motors very well, and apply their knowledge to FEs, which can lead to problems or omissions of critical procedures. Below is a list of recommendations and special notes compiled from several FE "experts."

The Santa Fe comes standard with a 185-horsepower 2.4-liter four-cylinder engine, and a 235-horsepower, turbocharged 2.0-liter four-cylinder is available. Both engines are mated to an eight-speed automatic transmission. The base engine is uninspiring. It delivers lackluster acceleration and generally feels weaker than many rival powertrains.
