The Conservation and Biodiversity program amplifies and accelerates transformative societal change to restore and protect biodiversity. In a future committed to protecting both wildlife and humanity, this preservation of biodiversity is one of the many solutions to the climate crisis.

Conservation and Biodiversity | Earth Day

Global Biodiversity Protection. By Abbie Dosell, Marine Conservation Institute GLORES Science Intern. Some of the world's most biodiverse and ecologically valuable marine ecosystems are sporadically distributed among different regions and cultures globally. Due to this diversity, a one-size-fits-all marine protected area (MPA) framework is not sufficient to protect biodiversity.

Global Biodiversity Protection » Marine Conservation Institute

Biodiversity Congress is a global platform to discuss and learn about Ecology and its associated fields, Evolution of Species, Plant & Animal Biodiversity, Biodiversity Management, Fauna & Flora, Biodiversity & Food Security, Conservation of Endangered Species, Marine Biodiversity, Forestry, and Sustainable Energy Development.
