Global Challenges in the Arctic. Thursday, May 7, 2009 9:00 am - 6:00 pm. With global energy security and climate change concerns quickly developing into matters of national security for states around the world, the High North region has increasingly become a priority for nations on the Arctic's periphery. As part of our "Geopolitics in the High North" project in partnership with the Norwegian Institute for Defence Studies (IFS), this event gathered a select group of experts ranging from ...

Arctic Issues & Threats The fight to save the Arctic is heating up. The region is more impacted by global warming than any other place in the world. And as if the impacts of climate change weren't enough, international oil companies have invested in exploiting the oil that lies deep in Arctic waters.

### Arctic Issues & Threats - Greenpeace USA

The Arctic is warming at a rate of almost twice the global average. Without urgent action to cut greenhouse gas emissions, the world will continue to feel the effects of a warming Arctic: rising sea levels, changes in climate and precipitation patterns, increasing severe weather events, and loss of fish stocks, birds and marine mammals.

### Global Challenges in the Arctic Region - Taylor & Francis

The Arctic is the "last frontier." Its harsh conditions, severe storms, ice cover, and long periods of darkness have made human exploration and habitation difficult. However, due to climate change, melting sea ice is opening up the Arctic like never before. Over the next several years, the future of the Arctic will be determined.

### The Arctic: Five Critical Security Challenges | ASP ...

Global warming has created a new ocean in the Arctic, and that poses challenges for the Pentagon in the geopolitical battle with Russia and other nations. A recent Defense Department report to Congress on the military's Arctic strategy said that the DoD must address "the Joint Force's eroding competitive edge against China and Russia."

### The New Arms Race in the Arctic | Outrider

Global Challenges in the Arctic Region: Sovereignty, environment and geopolitical balance (Ashgate Plus Series in International Relations and Politics)

### Global Challenges in the Arctic Region: Sovereignty ...

Climate change is altering the physical landscape in the Arctic. The region is warming twice as fast as the rest of the planet, much faster than many climate scientists predicted. A warmer Arctic may pose national security challenges, but it may also create opportunities for investment and development in Alaska.
