## **Growing Pains: Making Sense of Childhood - A Psychiatrist ...**

Growing pains are often described as an ache or throb in the legs — often in the front of the thighs, the calves or behind the knees. Growing pains tend to affect both legs and occur at night, and may even wake a child from sleep. Although these pains are called growing pains, there's no evidence that growth hurts.

## **Growing pains - Symptoms and causes - Mayo Clinic**

Though Growing Pains is a typical sitcom in many ways -- most obviously in the ability to solve problems in less than 30 minutes -- its comedy roots didn't stop it from addressing some emotional issues that are still relevant today, including bigotry, sexism, women balancing careers and family, loved ones' death, and teen drug and alcohol use.
