

# Holt Geometry 9 2 Reteach Answers

Right here, we have countless books **holt geometry 9 2 reteach answers** and collections to check out. We additionally give variant types and afterward type of the books to browse. The tolerable book, fiction, history, novel, scientific research, as well as various further sorts of books are readily easily reached here.

As this holt geometry 9 2 reteach answers, it ends up being one of the favored books holt geometry 9 2 reteach answers collections that we have. This is why you remain in the best website to see the unbelievable ebook to have.

If your library doesn't have a subscription to OverDrive or you're looking for some more free Kindle books, then Book Lending is a similar service where you can borrow and lend books for your Kindle without going through a library.

9-23 Holt Geometry Reteach Composite Figures continued You can also find the area of composite figures by using subtraction. To find the area of the figure at right, subtract the area of the square from the area of the rectangle. area of rectangle:  $A = bh$  area of square:  $A = s^2 = 12(9) = 108$   $16^2 = 256$  The shaded area is  $108 - 16^2 = 92$  in<sup>2</sup>.

### **9-3 Composite Figures**

Holt McDougal Geometry Reteach Spheres continued The radius of the sphere is multiplied by 1 4. Describe the effect on the surface area. 4 2 Notice that  $1024 \times 16 = 64$ . If the dimensions are multiplied by 1 4,

2. Justify the following equation:  $(OH)^2 = OR \cdot OS$   $\_ OH$  is a tangent segment of circle C,  $\_ OR$  is a secant segment, and  $\_ OS$  is its external secant segment. So  $(OH)^2 = OR \cdot OS$ . When the observer's altitude above Earth's surface is small relative to the diameter of Earth, you can replace OR with RS in the equation from Exercise 2.
