Name . Right triangles The Pythagorean Theorem

NOTES. Frank (then Franky) wrote a few solid (if acerbic) books during this time, such as Addicted to Mediocrity (Wheaton, IL: Cornerstone Books, 1981).; See Frank Schaeffer, Dancing Alone: The Quest for Orthodox Faith in the Age of False Religion (Brookline, MA: Holy Cross Press, 1994). Merriam-Webster has three definitions for enfant terrible, each of which capture something of what Frank ...

lines: lines that go on forever side by side and never cross, like railway lines.. The angles around any lines intersecting parallel lines also have some interesting properties.

Introduction to Angles | SkillsYouNeed

Frank Schaeffer is a New York Times best selling author. Before he'd served even one year President Obama lost the support of the easily-distracted left and engendered the white hot rage of the hate-filled right. But some of us, from all walks of life and ideological backgrounds — including this white, straight, 57-year-old, former ...

Frank Schaeffer: Obama Will Triumph. So Will America.

(Source: Noetic Learning) We have partnered with Noetic Learning to bring you the "Problem of the Week" program! Use these interesting and non-routine creative math problems to help your students think logically, creatively and mathematically.

Math Problem of the Week | Math Goodies

The sum of the measures of the interior angles a and b is equal to the measure of the exterior angle x . $m\angle a + m\angle b = m\angle x$ Let $m\angle a = 89^\circ$ and $m\angle b = 37^\circ$. $89^\circ + 37^\circ = m\angle x = 126^\circ$ Since $\angle x$ and $\angle c$ are supplementary angles, $m\angle c = 180^\circ - 126^\circ = 54^\circ$ Find the missing angle measures. Use what you know about interior, exterior, and supplementary angles.
