...

As with other books in this series, macOS Catalina: The Missing Manual is just what a non-computer-geek like me needs to know about the product—and more. But the information is not delivered in confusing techno' language, but in simple English. And it is thorough, unlike many other books on the subject. It is a hefty volume, but an essential one.

Hundreds of features have been removed, added, or moved around. Few in the world are more qualified to guide Mac users through the undocumented jungle of Mac OS X than David Pogue, triple-award-winning former Macworld columnist and author of the best-selling Mac OS 9: The Missing Manual. His new book shines light on both the broad strokes and the fine points of Mac OS X version 10.1, including understanding its UNIX-like folder structure, setting up an office network, capitalizing on its rich ...
