Are you needing some extra time in the classroom for working with small groups? Check out these kindergarten independent work stations for math and literacy. These student centers include activities for phonics, phonemic awareness, word work, addition and subtraction included.

### kindergarten independent work stations

I implemented my math centers last year at the end of whole group instruction. I would call a group of 2-6 students to my back table. The remaining students would work on math tubs. I used a SmartBoard set up for assigning my students to their math centers. This is the same setup for Daily 5 so the students are aware of it and follow.
