Mazda Miata Power Door Lock

Power Lock Kit For Mazda Miata. To the best of our knowledge, up until around 1997, there were no Miatas made with power locks, but the doors of the Miata were designed for power locks and installation isn't that difficult. This kit is a prewired power lock kit. If you can install a car stereo, you can install these power locks.

are broken, this is probably a cheaper way to fix the power locks than anything else! This kit includes two 4 button transmitters (3 channels), receiver, wiring and 2 lock actuators, one for each door.

Power Locks and/or Keyless Entry for Mazda Miata

Power Doorlock Installation for '99 Miata. Note: These instructions are for a '99 Miata with power windows and an automatic passenger's side door lock. If you have manual windows, you'll need to remove the window crank. If you don't have automatic passenger's side door lock, you'll need a kit with two actuators instead of one.

Power Doorlock Installation for '99 Miata

The actuator is a series of gears, with a set of rack and pinion gears at the end. When the actuator gets the signal from the power door lock switch, a small motor turns the gears. The rack and pinion are able to convert the rotational motion of the motor to a vertical motion, which locks and unlocks the doors. Like the power door lock switch, the power door lock actuator can malfunction due to the large amount of use that it gets.

Place the coupling block over the end of the connecting rod and tighten the set screw. Unlock the door, retract the lock motor plunger all the way, and attach the coupling block to the lock rod and tighten the set screw. Connect the power wires from the motor to your alarm system as directed and you're all done!
