The McIntosh menus were barely legible on its low-resolution, 3.6-inch LCD screen. It served the purpose (I've found it very useful for other tasks like viewing the on-screen setup menus on various pieces of gear when I don't want to fire up a video projector), but for regular day-to-day use I'd want something that makes the very fine print on ...

### **McIntosh MS300 Music Server | Sound & Vision**

Its dead-simple user interface should appeal to the computerphobic audiophile, while being sophisticated enough that the computer-savvy can make the MS750 do just about anything they want. It's true that you pay a premium for that McIntosh faceplate, but you get more with it, too.

Concluding the time we spent with the McIntosh Labs Music Server MS300, we can say that the company from New York State did a good job to make a statement of what a music server should be. Control functions are in abundance just as are connectivity options. The user interface is friendly, logical for non-computer freaks and easy to grasp.
