Next, we measure the output of entrepreneurial ecosystems with different indicators of high-growth firms. We use the 12 provinces of the Netherlands as a test case for measuring the entrepreneurial ecosystem elements, composing an entrepreneurial ecosystem index and relate this to entrepreneurial outputs.

Measuring Entrepreneurial Ecosystems | SpringerLink

To judge the vibrancy of their entrepreneurial ecosystems, many states and regions focus on things like research and development funding at universities, available investment capital, and engineering degrees. These may be associated with more entrepreneurial activity, but they are inputs, not necessarily the outcomes to be tracked.

Measuring an Entrepreneurial Ecosystem - The Ewing Marion ...

4 | Measuring an entrepreneurial ecosystem Our first suggested way to measure fluidity is by looking at population flux, or individuals moving between cities or regions. This is how cities “re-sort” and “react adaptively,” and this population flux should lead to the “collisions” that are key to
