This is because all language learners translate their second language back to their base/first language in order to comprehend meaning. Intention of non-literal meaning of words is nearly impossible to identify in a speaker or writer. To help English learners with this, educators must use scaffolding in every grade level and classroom.

The Importance of Scaffolding for ESL Learners - Graduate ...

Scaffolding Language Learning Teachers and other adults modify their language to match the language level of students. This type of modification is called “scaffolding.” All students (including adults) learn better when the teacher scaffolds or adjusts his/her instruction to the level of the student.

Scaffolding Language Learning - Interpreting and Language ...

And while language learning is certainly different from practicing extreme sports, climbing the Everest, or being a professional chess player, the point is that flow theory tends to support the idea that the development of skills should take place within a vital scaffolding; put another way, you should practice a particular skill at a level ...

This can look like including literature about and by those who identify as the cultures in the class, scaffolding material so that it reflects the prior knowledge of students, or including references to things that the students can relate to. Teachers will need to learn about their individual students to make this happen.
