If you're looking for an easy to use source of free books online, Authorama definitely fits the bill. All of the books offered here are classic, well-written literature, easy to find and simple to read.

Social Closure The Theory Of

Introduction. "Social closure" is one of the most basic terms and concepts in sociology. Basically, closure refers to processes of drawing boundaries, constructing identities, and building communities in order to monopolize scarce resources for one's own group, thereby excluding others from using them. Society is not a homogenous entity but is instead internally structured and subdivided by processes of social closure.

Social Closure - Sociology - Oxford Bibliographies

Julie Posselt suggested that we talk with Jerlando Jackson, who introduced us to the simple yet subtle concept of social closure. Social closure is a "process of subordination whereby one group monopolizes advantages by closing off opportunities to another group of outsiders beneath it which it defines as inferior and ineligible" (Murphy, 1988, p. 88).

Social Closure: An introduction and some broad examples ...

Max Weber's concept of social closure states that a dominant group safeguards its position and privileges by monopolizing resources and opportunities for its own group while denying access to outsiders. Using this idea, Murphy here examines the reasons for social inequality in contemporary society.

Tristen Naylor's Social Closure and International Society fosters a multi-dimensional framework for addressing the way state and non-state entities alike compete and seek to maintain order and status within international society. The framework specifically focuses on a conceptualisation of international order.

Review - Social Closure and International Society

Social closure refers to the phenomenon by which groups maintain their resources by the exclusion of others from their group based on varied criteria. Closure is ubiquitous, being found in groups all over the world at all sizes and classes. Some examples of social closure include, "Access to private schools follows explicit rules and depends on financial capacities; access to university depends on a certificate or diploma, eventually from certain schools only; membership in a highly ...

disClosure is an annual thematic publication dedicated to investigating and stimulating interest in new directions in contemporary social theory. By encouraging submissions from a variety of disciplinary, geographical, and theoretical perspective and genres, the journal seeks to expand the nature of what is studied by the academy and how it is studied.

disClosure: A Journal of Social Theory | Social Theory ...

Closure theory In sociology, Frank Parkin is best known for his contribution to the theory of social closure, most fully laid out in his Marxism and class theory: A bourgeois critique. In quite sharp tone, Parkin argues that Marxist theories of social class were marked by fundamental deficiencies, particularly associated with the ambiguous status of their central explanatory concept, mode of production . [6]

Frank Parkin - Wikipedia

The authors' systematic explication of social closure as a discriminatory mechanism reveals that traditional analyses of structural effects and process are not competing, but rather complementary. Analyzing race and sex discrimination cases filed in Ohio from 1988 to 2003, the authors highlight dominant processes of social closure that impact discriminatory exclusion, expulsion, mobility, and harassment on the job.
