Lighting is a somewhat complex element of any room. In living rooms, it's less so than in more utilitarian rooms like kitchens, but there are still some important considerations that should not be ignored. Most importantly, you should include each of the three main types of lighting: ambient, task, and accent. Light sources should be placed at different levels throughout the room.

Reading The Beginner's Guide to Natural Living - and this website - will help you understand the basic principles of "natural living," a catch-all phrase used to indicate a lifestyle approach to health based on how our bodies operate, not on which drugs can alleviate symptoms of larger underlying problems. I place a strong emphasis on how to eat a healthy diet based on whole, organic food, and I provide my personal healthy recipes, because your health is absolutely determined by what you eat.
