The flipped classroom is not an online course. It is a way to engage students and make them more active in the learning process. Students watch a short video lecture for homework (click on the video below for an example) and take notes and complete practice examples. In the classroom these problems are evaluated by the students and teacher to address difficulties and misconceptions.

IB Biology HL Review: Unit 3 Unit 3: The Chemistry of Life
Practice Questions 1. Describe the significance of water to living organisms. (6 marks) Features may include:

- Surface tension - allows some organisms (e.g. insects) to move on water's surface
- Polarity/capillarity/adhesion - helps plants to transport water
- Transparency - allows plants to photosynthesize in water ...
