### CNC Lathe BOEHRINGER VDF 250 Cm - fleckenstein-machine.com

The machine rate is the sum of the fixed plus operating plus labor costs. The division of costs in these classifications is arbitrary although accounting rules suggest a rigid classification. The key point is to separate the costs in such a way as to make the most sense in explaining the cost of operating the men and equipment.

### 3. CALCULATION OF MACHINE RATES

Operating activities are those that pertain to a company's core business activities, such as manufacturing, distributing, marketing and selling a service.
