### Vokera Wireless Rf Room Thermostat

This 'on / off' room thermostat can be used to adjust the set room temperature. It's ideal for the Vision C boiler, as the user can conveniently adjust their heating temperature without interfering with any programmed heating timings that have been set on the Vision C boiler's built-in seven-day digital clock. Also compatible with all other Vokèra boilers where a simple room thermostat is required.

### RF room thermostat control|Vokera

The Vokèra RF room thermostat has an internal anti-frost function that switches on the boiler (in the case the boiler is properly set to allow the room thermostat to activate/deactivate the boiler, i.e. boiler in winter mode) if the room temperature drop-off under 5 °C. this function is active all the time whatever the programming time or the set temperature.

### WIRELESS ROOM THERMOSTAT WITH HOURS CLOCK - Vokera Ltd

Unlike the conventional thermostat, this control separates the function in two units. The receiver serves for wiring connections and heat on/off control. The transmitter serves as the user interface and for temperature sensing/control. The two units are linked by radio frequency (RF). The RF
