Multimedia / e-Learning / Interactive Web Application

Multimedia can be recorded for playback on computers, laptops, smartphones, and other electronic devices, either on demand or in real time (streaming). In the early years of multimedia, the term "rich media" was synonymous with interactive multimedia. Over time, hypermedia extensions brought multimedia to the World Wide Web.

Multimedia - Wikipedia

Multimedia is important to your website for many reasons, but a few in particular. First, without multimedia, your website will likely look like a huge wall of text. This can easily intimidate site users, and they might even navigate away from your site to find information elsewhere.

4 Reasons Multimedia is a Crucial Element for Websites

Share Multimedia Content in the Multimedia Viewer You can use the Multimedia Viewer panel to share web pages and multimedia content with attendees. If you want to share content by sharing your screen, see Share Content in Cisco Webex Meetings and Cisco Webex Events. The audio for the Multimedia Viewer is separate from the audio for your meeting.
