Wechsler Intelligence Test For Children

The Wechsler Intelligence Scale for Children (WISC), developed by David Wechsler, is an individually administered intelligence test for children between the ages of 6 and 16. The Fifth Edition (WISC-V; Wechsler, 2014) is the most recent version. The WISC-V takes 45–65 minutes to administer. It generates a Full Scale IQ (formerly known as an intelligence quotient or IQ score) that represents a child's general intellectual ability.

Wechsler Intelligence Scale for Children - Wikipedia

The Wechsler Intelligence Scale for Children (WISC) is an intelligence test which determines an individual child's IQ, or intelligence quotient. It was developed by Dr. David Wechsler (1896-1981), who was the chief psychologist of New York City's Bellevue Psychiatric Hospital. The test that is typically administered today is the 2014 revision of the test that was originally devised in 1949.

An Explanation of Wechsler Intelligence Tests

Wechsler Intelligence Scale for Children (WISC) The Wechsler Intelligence Scale for Children (WISC) has been around since 1949 as an adaptation of David Wechsler's 1939 Wechsler-Bellevue Intelligence Scale. This version of the Wechsler test is a psychological assessment that measures different aspects of intelligence and is designed for children between the ages of 6 to 16.

Wechsler Intelligence Scale for Children (WISC) | IQ Test Prep

The Wechsler Intelligence Scale for Children, or WISC, is a verbal exam for children ages 6 to 17 that assesses a child's intelligence and generates an IQ score. The exam was developed by David Wechsler and may be used as an admissions test for some private schools, or as an exam for entrance into a gifted program.

The Wechsler Intelligence Scale for Children (WISC) Test Guide

The WISC Test (Wechsler Intelligence Scale for Children) is an IQ test administered to children between ages 6 and 16 by school districts and psychologists. The objective of the exam is to understand whether or not a child is gifted, as well as to determine the student's cognitive strengths and weaknesses.
