The WaveRunner III 650 (Marine Jet 650TL) was released as the world's first 3-passenger PWC, featuring a larger hull and high-performance engine. With truly pleasurable running performance and great stability, it started a new rage and became the predecessor of the later family models. It became a standard that is still seen on the water today.

Yamaha Wave Runner 650 TL [carburetor maintenance] @ Songoland Garage

I'm not getting fuel to the carb on my 650 waverunner 3. I installed a carb kit including new diaphragm for the fuel pump. The pulse line is working, fuel line is clear and return line is clear. I even installed a primer bulb inline to help with getting fuel to the pump. Still no fuel. Ski runs perfect when

SBT Yamaha jet ski pistons are high quality, high strength, cast eutectic pistons. Our "standard" pistons are comparable to others premium pistons - anodized on the top surface for better heat resistance and surface strength, graphite coated on the sides to reduce friction between the piston and cylinder and enable efficient break in. SBT is so confident in the quality of our pistons that all ...

How can I tell if my reed valves are bad on a 1991 650 yamaha jet ski? I took them out and the flaps were closed. The ski runs but after less than 5 mins. it acts like it is running out of fuel. If it is not the reed valve it must be the carb. Any help would be great thanks Bill.
